

Vault Brewing Co.

Vault Brewing Company is like no brewery or brewpub you've ever experienced. We do not consider ourselves a bar, a pub, or even a traditional brewery. Our goal is to re-envision the concept of a brewpub and create an experience that is truly unique.

Our beer is unfiltered and brewed on-site in our 310 gallon brewery. We brew twice a week and each batch rarely lasts more than a month. Our beer lines run directly from the serving tanks behind the bar may be served via draft, cask, or nitro taps.

Bring this brochure to Vault Brewing Co. during the month of May for a free pint with the purchase of any two pizzas (limit one per customer).
